Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

2.2 Basis of measurement

The condensed consolidated interim financial statements have been prepared on the historical cost convention and accrual basis of accounting, except for the following items included in the condensed consolidated interim statement of financial position:

- Investments carried at fair value through other comprehensive income are measured at fair value.
- -The employees' end of service benefit obligation is measured at the present value of the future liability using the expected unit credit method.
- Lease Liabilities are measured at the net present value of the lease payments.

The preparation of these condensed consolidated interim financial statements in accordance with International Accounting Standard No. (34) "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia and other standards and issuances endorsed by the Saudi Organization for Chartered and Professional Accountants requires management to use judgments and estimates that affect the application of accounting policies and the amounts listed of assets, liabilities, income and expenses. The significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual consolidated financial statements.

Group's management believes that, all sources of estimation uncertainty remain similar to those disclosed in the last annual consolidated financial statements. (*) The Group signed a lease contract (Dated 18 February 2020) on 2 March 2020 to lease a land parcel in the city of Jeddah for a total amount of SR 194 million consists of 22 annual unequal payments started on 1 April 2020. This land parcel was handed over to the Company on 3 January 2021. This land parcel is partially owned by Samaual Taha Bakhsh (a related party). The Company accordingly recognized a right of use asset and related lease liability to account for this lease. Subsequently, in March 2022, The Group's board of directors decided to terminate the above-mentioned lease contract. Accordingly, the Management signed a lease termination agreement on 15 May 2022 which resulted in a derecognition of the related right-of-use assets amounting to Saudi Riyals 136 million and lease liability amounting to Saudi Riyals 136 million.

According to the lease termination agreement, the Company is entitled to receive back all costs and expenses incurred in connection with such lease from the lessor. At 31 March 2022, the Company had a receivable of Saudi Riyals 6.4 million from the lessor to be received over a period of three years. (Refer to Note 6 and Note 18).

(**) Based on the meeting of the Real Estate Committee on 1st of April 2022, it was confirmed that the management will not use the option for renewal for some contracts. Based on this, the Group's management has recalculated the right of use assets and the obligations for lease liabilities. This resulted in a decrease in the right of use assets of Saudi Riyals 102 million and a decrease in the lease liabilities of Saudi Riyals 102 million.

Impairment test for goodwill

The Goodwill is related to the acquisition of Medscan Terminal Company Limited. Goodwill is monitored by the Group's management at the level of only one cash-generating unit (Medscan).

The Group's management performs goodwill impairment assessment annually and when there are indicators that the carrying value of the goodwill may be impaired. Group's management believes that any reasonably possible change in the key assumptions used for impairment assessment performed on 31 December 2021 will not cause the carrying value of the goodwill to materially exceed its recoverable amount. Accordingly, no impairment loss was recognized for the six-month period ended 30 June 2022.

The Group has credit facilities amounting to Saudi Riyal 633 million from various local banks. Such facilities comprise short and long-term borrowings, letters of credit and guarantee and notes payable for bills of exchange to finance working capital, investments, and capital expenditures. These facilities, which are in form of Murabaha and Tawarroq financing, bear financial charges at prevailing market rates based on Saudi Inter-bank Offer Rate ("SIBOR") and Riyadh Inter-bank Offer Rate ("RIBOR"). The facilities are secured by order notes payable on demand equivalent to the total value of the facilities.

Borrowings contain certain covenants. A future breach of covenants may lead to renegotiation. The covenants are monitored on a monthly basis by Management, in case of potential breach, actions are taken by the management to ensure compliance. The Group has complied with these covenants of its borrowing facilities as of 30 June 2022.

For the above borrowing, the fair value is not materially different from the carrying amount, since the interest payable on those borrowing is either close to current market rates or the borrowings are of a short-term nature.

19. INVESTMENTS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

ACE Hardware International Holdings, Ltd (AIH) is a limited liability company incorporated under the laws of Bermuda. AIH is a majority-owned and controlled subsidiary of Ace Hardware Corporation with a noncontrolling interest owned by its international customers.

The fair value of AIH's shares has been reported according to the latest fair value estimate.

All other financial assets and liabilities of the Group are classified and measured at amortized cost.

For all financial assets and liabilities, the fair value of financial assets does not materially differ from their carrying values.

20. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. Underlying the definition of fair value is the presumption that the Group is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

When measuring the fair value, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The carrying amount of financial assets and financial liabilities approximates their fair value. The Group only presents unquoted financial assets at FVTOCI under fair valuation model.

The valuation technique used for measuring the financial assets at FVTOCI is disclosed in Note 19 to these condensed consolidated interim financial statements.
